## **MEDICAID INFORMATION RELEASE# MA17-04**

**To:** Prescribing Providers, Pharmacists, and Hospitals

**From:** Matt Wimmer, Administrator  
Division of Medicaid

**Subject:** Preferred Agents for Drug Classes Reviewed at Pharmacy and Therapeutics Committee Meetings on April 21 and May 19, 2017.

Drug/Drug Classes:	Noted below. Agents shaded indicate changes in preferred drug status.
Implementation Date:	Effective for dates of service on or after July 1, 2017

The attached document is an update to the Idaho Medicaid Preferred Drug List. It reflects decisions based on recommendations from the Idaho Medicaid Pharmacy and Therapeutics Committee at the April and May 2017 meetings.

The preferred drug list and drug-class specific prior authorization criteria are based on nationally recognized peer-reviewed information and evidence-based clinical criteria. Medicaid designates preferred agents within a drug class based primarily on objective evaluations of their relative safety, effectiveness, and clinical outcomes in comparison with other therapeutically interchangeable alternative drugs and, secondarily, on cost.

Questions regarding the Preferred Drug List can be referred to the Idaho Medicaid Pharmacy Unit at (208) 364-1829. A current listing of preferred agents, non-preferred agents, and prior authorization criteria for all drug classes is also available online at [www.medicaidpharmacy.idaho.gov](http://www.medicaidpharmacy.idaho.gov).
